

Cultivating Meaning in Medicine

THE ROLE OF VULNERABILITY

*In this **first session** of our 3-part event series, we focus on the role of vulnerability in cultivating meaning in our personal and professional lives. Through presentation, conversation and an experiential Narrative Medicine exercise, we'll explore how vulnerability can deepen our connection with ourselves, each other, and our moments. Please join us for this opportunity to connect, learn, and grow—co-creating a new narrative of meaning for our culture of medicine.*

Speakers

DR. MARK SHERMAN

DR. TRACY TRESOOR

Experience Narrative Medicine, Presented by Dr. Tracy Tresoor

Developed at Columbia University in 2000, Narrative Medicine is regarded as an approach for effective medical practice, fortifying our ability to recognize, absorb, and be moved by stories of illness.
