The *Opioid Response Network's (ORN)* mission is to reduce overdoses and address opioid and stimulant use disorders, and play a key role in tackling the current epidemic. For more information, go to www.OpioidResponseNetwork.org and learn how you and your organization can make a request for free training and education.

ORN is a SAMHSA-funded grant initiative.

If you have not registered for one of AOAAM's webinars in the past, [please subscribe to AOAAM](#), then log in and register for the webinars. **You do not have to be an AOAAM member to subscribe or register for the webinars.**

Hot topics in Addiction Medicine

Complimentary Webinar Series - Includes CME

Join us for the *ORN* Spring 2025 Hot Topics in Addiction Medicine webinar series, a six-week exploration of cutting-edge research and innovative approaches in addiction treatment. Each Wednesday from April 9 to May 14, 2025, at 5 PM ET, leading experts will present on critical topics shaping the field of addiction medicine.

Continuing Medical Education (CME) Credits Available

Participants in this program may earn the following CME credits:

- ✓ Up to 6 AOA Category 1-A Credit
- ✓ Up to 6 *AMA PRA Category 1 Credit™* (Approval Anticipated)
- ✓ Up to 6 AAPA Category 1 CME Credit (Approval Anticipated)
- ✓ Up to 6 Nurses CNE Credit (Approval Anticipated)

Registration is required for each webinar individually. Don't miss this opportunity to gain valuable insights from experts in the field. Reserve your spot today!

GLP-1 receptor agonists for the treatment of substance use disorders: A review

Joji Suzuki, MD

[REGISTER -5/14](#)

Learning Objectives: By the conclusion of this webinar series, attendees will be able to:

1. Describe the hepatitis C (HCV) epidemic in the Pacific Northwest and analyze the effectiveness of peer-assisted telemedicine models in expanding HCV treatment access.
2. Evaluate the prevalence and impact of PTSD among individuals with opioid use disorder (OUD) and assess the efficacy of prolonged exposure therapy and telemedicine-based trauma interventions.
3. Identify and analyze barriers to substance use treatment in rural communities using qualitative research findings and the social ecological model.
4. Differentiate between complex clinical presentations in addiction medicine, including precipitated opioid withdrawal, intranasal drug-related tissue damage, and psychiatric symptoms related to methamphetamine toxicity.
5. Assess the mechanism of action, safety profile, and potential benefits of emerging pharmacologic interventions, such as Methamphetamine Assist Packs and GLP-1 receptor agonists, for managing substance use disorders.
6. Apply evidence-based knowledge of addiction pharmacology and treatment strategies to develop improved clinical decision-making processes and enhance patient care outcomes.

Outcomes: The ORN Spring 2025 Hot Topics in Addiction Medicine webinar series will enhance participants' knowledge and clinical competencies in addressing substance use disorders (SUDs) through emerging research, innovative treatment models, and evidence-based interventions..

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Academy of Addiction Psychiatry (AAAP) and AOAAM.
